

ONNURI SU JOK THERAPY: Application of correspondence systems in clinical practice

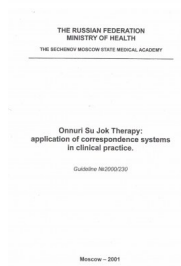

**THE RUSSIAN FEDERATION
MINISTRY OF HEALTH**

THE SECHENOV MOSCOW STATE MEDICAL ACADEMY

**Onnuri Su Jok Therapy:
application of correspondence systems
in clinical practice.**

Guideline №2000/230

Moscow – 2001

- The suggested method of treatment through the special systems of hand and foot correspondence differs from the well-known methods of acupuncture based upon using the consistent scheme of the active points location according to the principle of structural resemblance, allows us to find out the proper healing points not remembering the location of certain correspondence areas. - The tutorial guidelines are meant to scientists, acupuncturists and all the physicians.
